

Issue	Screen Shot	Description
MAP?		<p><u>Map Each Question</u> - Allows for statistical analysis across all keys. May be used when the test versions have the question order mixed but the questions and answer choices are identical. Answer choices must be identical in text and order.</p> <p><u>Provide Answers</u> – Only supplies statistical analysis on the primary key. All other keys will score correctly but will not be figured into the statistical analysis.</p>
Sync Data		<p><u>Forcing Data to Sync</u> – At the bottom of the Quizzes screen click on  then click on </p> <p>ZipGrade will Auto-Sync but it may take a few minutes to initiate.</p>
Poor Image Quality		<p><u>Increasing Camera Sensitivity and Accuracy</u> – Under the Settings menu scroll do to REQUIRED IMAGE SHARPNESS and increase the setting.</p>
TAG		<p><u>TAGGING Questions</u> – Allows for targets/objectives (TAGs) to be attached to the questions. Additional target/objective statistics will be provided with the on-screen summary of the assessment. The  and  tabs have a report that summaries mastery of the TAGs for all past assessments and the current assessment.</p> <p>Under the Edit Key screen click on  for each question to be tagged. Click the  to enter your TAG descriptor</p>
Reports		<p>Login to your ZipGrade account online; <a href="http://www.zipgrade.com">www.zipgrade.com</a>. Under the  menu, select an assessment. Click on  and select a report.</p>
